Jeff Dunn is a career federal employee with 22 years of service at the National Security Agency. His current position is Technical Director of the Secure Network Technology Office. This office is researching new technologies to protect information systems in the Department of Defense and other critical organizations. During his NSA career, he has held a variety of program manager and management positions.

Mr. Dunn serves as Chair of the Advisory Board of the Center for Identification Technology Research at West Virginia University. He is the NSA representative to the INCITS M1 Technical Committee on Biometrics. He Co-chairs the Biometric Consortium Biometric Interoperability, Performance, and Assurance Working Group. Mr. Dunn consults on biometric technologies to a wide range of Government organizations including appearing before Congressional hearings.

Jeff Dunn received a Bachelor of Science in Computer Science from Rose-Hulman Institute of Technology and a Master of Science in Technical Management from the Johns Hopkins University. He is married and has two school-age children.
