Dr. Valorie Valencia is co-founder and Chief Executive Officer of Authenti-Corp. She received her Ph.D. in Optical Sciences from the University of Arizona in 1991 and began working in the biometrics and security arenas in 1995 at Sandia National Laboratories. Dr. Valencia's most recent technical contributions involve personal authentication technologies, such as biometrics and smart card technologies, and novel thermal imaging systems.

Dr. Valencia has been working with various types of multi-disciplinary systems for over 20 years in academic, commercial, and Government environments, and has managed and participated technically in over 25 successful research, evaluation, and engineering projects. She has authored over 45 published papers (as V. Williams), abstracts, and U.S. Government reports.

Dr. Valencia currently serves on several international and domestic biometrics and security working groups, including the NIST Biometric Consortium Interoperability, Performance, and Assurance Working Group, the international Common Criteria Biometric Evaluation Methodology Working Group, and the United Kingdom Biometrics Working Group. She is also a member of the INCITS M1 Technical Committee on Biometrics and a US Delegate to the ISO/IEC JTC 1/SC37 Biometrics standardization committee.
