

Biometric Consortium 2003 Conference

Ron Sutton

Chairman
M1.4 Task Group on Biometric
Performance Testing & Reporting

sutton57@bellsouth.net

Ron Sutton is a graduate of Purdue University in West Lafayette, Indiana in Aeronautical & Astronautical Engineering. He has worked on and lead development efforts ranging from autopilot programming and analysis for the Pershing II missile to image processing for automatic navigation and targeting systems, creation of new architectures for Automated Test Equipment, performance tuning and technology insertion for major information systems and design and development of biometric identity verification systems. He currently serves as the chairman of the M1.4 Task Group on Biometric Performance Testing and Reporting, and as a US expert and co-editor to JTC1 / SC37 Special Group 5 on Biometric Testing and Reporting.

Mr. Sutton lives in Orlando, FL and works at Lockheed Martin, where he has been employed since 1981.
