Robert Christensen joined Cross Match Technologies in January 1999. As a Senior Vice President, he represents the company's domain expert in fingerprinting and is primarily responsible for international business development. His efforts have helped to establish some of the company's key partnerships. Mr. Christensen assists with corporate strategy and coined the positioning of "forensic quality," which has since been adopted by the industry.

His expansive background includes over 20 years of law enforcement experience, including that of Special Agent for the Air Force Office of Special Investigation. He is recognized as a Fingerprint Expert, which has given him a well-known status in the law enforcement arena and allowed him access to work many high profile cases. His expertise has consistently been used nationally and internationally whenever there is a call for an authority in the field. He has testified as an expert in nine countries and managed operations for other Biometrics Companies.

Mr. Christensen is an active member of the IAI and a highly published author on Digital Fingerprinting. His participation is also a valued part of the advisory staff to Department of Homeland Security Programs.

Mr. Christensen graduated from the United States Air Force Special Investigations Academy and holds a Masters of Science Degree in Criminal Justice from LaSalle University. He resides in Florida.
