Rich Carter came to AAMVA in 1992 after a career in the US Air Force. His Air Force career included six overseas tours of duty spread over five countries in Asia and Europe. While in the Air Force he completed his Bachelor's degree with the University of Maryland and his Master's degree with the University of Southern California. Mr. Carter began his AAMVA career heading up the PDPS Help Desk and then spent the next several years working with various driver systems projects. In 1997, he became the staff liaison for the MVIS Committee, which has since changed its name to the Information Technology Committee. In 2002, Mr. Carter earned his designation as a Certified Association Executive. He currently serves as the Director of the Technology Standards and Programs Department.

Among Mr. Carter's current duties is serving as the staff leader for the Unique Identifier Task Group on AAMVA's Uniform Identification Subcommittee. This is the AAMVA group responsible for researching biometrics and making recommendations for any interstate use of biometrics among the motor vehicle administrations in member jurisdictions.
