

## ***Biometric Consortium 2003 Conference***

---

### **Fred Herr**

Senior Technical Associate  
Identification Technology  
Partners, Inc.

---

[fherr@idtechpartners.com](mailto:fherr@idtechpartners.com)

Fred Herr is a Senior Technical Associate with Identification Technology Partners, Inc. In this position he supports The Biometric Foundation, representing TBF to INCITS Technical Committee M1, Biometrics. He currently serves as Chairman of the Task Group M1.2 on Technical Interfaces, which is responsible under M1 for such Standards work as BioAPI and CBEFF. M1.2 also is the U.S. Technical Advisory Group (TAG) to ISO/IEC JTC 1 SC 37 Special Group 2 on Technical Interfaces in Biometrics.

Mr. Herr's involvement with biometrics standards dates from the beginning of the development of the BioAPI standard, at which time he was the Unisys Corporation representative to the BioAPI Consortium and served as a member of the Consortium's Board of Directors. He also now serves as Technical Editor for both the INCITS project on the biometric standard for border management applications, and the SC 37 CBEFF international standard development. His career in the management of software development projects began more than 30 years ago.
