Creed Jones is a Strategic Engineer at Sagem Morpho, Inc., a provider of AFIS systems and fingerprint recognition technology for the forensic, government, and commercial markets. He is also an Associate Professor of Computer Science at Seattle Pacific University. Mr. Jones is the chair of the M1.1 data formats task group of the INCITS M1 committee for development of generic biometric standards, and participated in the development of the BioAPI specification and the biometrics annexes of the AAMVA driver license standard.

Prior to joining Sagem Morpho, Mr. Jones was active for 18 years in the machine vision and image processing industries. He has authored papers and articles published in the Proceedings of the IEEE, the SME, the FPEI, EURASIP JASP, Advanced Imaging and MOVE magazine, and has been awarded several patents in machine vision and imaging science.

Mr. Jones holds a BSEE and MSEE from Oakland University, and is conducting research in color face recognition while completing his PhD at Virginia Tech.
