Dr. Kevin Farrell is the Director for Speaker Verification Technology at ScanSoft. He was one of the founders and inventors of the SpeakEZ speaker verification technology recently acquired by SpeechWorks who then merged with ScanSoft. Most of Dr. Farrell's career has been dedicated to researching, developing, and commercializing speaker verification technology. Prior to SpeakEZ he had worked at Dictaphone and AT&T in other topics within speech processing including speech recognition and language acquisition.

Dr. Farrell received B.S., M.S., and Ph.D. in Electrical Engineering from Rutgers University where his graduate studies focused on pattern recognition with applications to speaker recognition.
