Alice Sturgeon has more than twenty years experience in information technology security, specializing in policy, standards and procedures. Ms. Sturgeon spent nineteen years in the Canadian federal government, at the Communications Security Establishment and Treasury Board Secretariat. At TBS, she worked on the development and implementation of the Government Security Policy and Standards and the ITS Strategy for the Government. From 1995-1998, Ms. Sturgeon provided independent consulting on policy and standards analysis and development, in security, audit and risk management, focusing on public key technology.

Ms. Sturgeon joined SPYRUS in August 1998 in the dual capacity of System Policy Architect and Manager of Standards. At SPYRUS, she is the lead on policies, standards, procedures, and legal issues related to high assurance, token-based authentication management and digital rights management protection.

Ms. Sturgeon has been an active member of ISO/IEC JTC1 SC27 Canadian Advisory Committee on IT Security for several years, and is currently serving a second three-year term as Chair.

Ms. Sturgeon has made numerous presentations during her career, published articles in various journals, and conducted training in various areas of security.
