Michael Thieme, Director of Special Projects at International Biometric Group, is among the biometric industry's leading authorities on biometric accuracy and performance, privacy issues in biometrics, and comparative biometric technology issues. Mr. Thieme leads IBG project teams providing biometric services and solutions to public and private sector clients. He has delivered extensive biometric technology evaluations to the FAA, AAMVA, the White House OSTP, California DMV, the National Institute of Justice, and the Hong Kong Immigration Department, as well as dozens of leading technology and integration firms.

Mr. Thieme is a co-author of *Biometrics: Identity Verification in a Networked World* and is the primary author of International Biometric Group's Comparative Biometric Testing and Biometric Market reports. He is a co-founder of the BioPrivacy Initiative, a framework for objective evaluation of privacy risks in biometric deployments. Mr. Thieme is a member of X9F Data and Information Security and INCITS Technical Committee M1, Biometrics. He also serves as a U.S. subject matter expert to the primary international biometric standards body, ISO/IET JTC1 SC37 Biometrics.
