Topic: Taking Today's Biometrics to Meet Tomorrow's Needs

Abstract: This talk will highlight biometrics in major government systems, with the emphasis on data sharing, standards and a statement of long-term needs.

Biography: Brad Wing is the Chief Biometrics Engineer for the U.S. Visit Program of the U.S. Department of Homeland Security (DHS). He also serves as chair of the DHS Biometrics Coordination Group as well as co-chair of the White House National Science and Technology Council Interagency Subcommittee on Biometrics. He is an active member of the International Civil Aviation Organization's New Technologies Working Group (dealing with biometrics in travel documents), M1 (the U.S. Biometrics Standards organization), and the International Standards Organization's SC37 (Biometrics Standards). He has worked in the field of biometrics for many years, with particular emphasis on applying biometrics to border crossing applications.
